¹ S&P Global Ratings' AAA¹ fund credit quality rating signifies that the fund's selection of portfolio holdings provides extremely strong protection against losses from credit defaults.

² S&P Global Ratings' S1² fund volatility rating signifies that the fund is expected to demonstrate a low sensitivity to changing market conditions and a level of risk that is less than or equal to that of a portfolio comprising the highest-quality fixed-income instruments with an average maturity of one to three years. Within this category, certain funds are designated with a plus sign (+). This indicates the fund's extremely low sensitivity to changing market conditions. These funds possess an aggregate level of risk that is less than or equal to that of a portfolio comprising the highest quality fixed-income instruments with an average maturity of 12 months or less.

³ Weighted Average Maturity

⁴ This product has a floating rate Net Asset Value (NAV), however the portfolio is managed in a manner that strives to keep the NAV at \$1.00.

Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the investment pools may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling (866) 319-3655.
